STUTZ'S COLUMBIA

SENATE WORKED FAST YESTERDAY

FINISHED LUMBER AND VOTE ON PINEAPPLE DUTY.

The Duty Is Raised on the Fruit, Amendment By Taliaferro, of Florida, Being Adopted.

DEFEAT FOR THE COMMITTEE.

Washington, June 24.—In unexpected short order the senate took up and disposed of the lumber schedule and then entered upon a discussion of pineapples, ending with the adoption of Taliaferro's amendment increasing the duty. This was a defeat for the committee on finance.

Calling up the tariff bill immediately after convening, Aldrich asked that the lumber schedule should receive first attention. He had no sooner taken his seat than McCumber, who, in the interest of the treeless northwest, has been a persistent advocate of free lumber, presented an amendment reducing the finance committee's rate of \$1.50 per thousand on sawed lumber to the house rate of \$1. This was generally recognized as a test proposition, as sawed lumber has been the bone of contention from the beginning. The North Dakota senator did not find it worth while to enter into an argument in support of this provision, but permitted it to go directly to a vote.

The result was against him, and was another triumph for the Aldrich rates, the vote standing 24 in favor and 44 against a reduced rate. Party lines were completely obliterated on this vote.

Another test came on the proposition to make the rate \$1.25 a thousand on lumber with a general charge in differentials, and on this vote the finance committee was also liberally supported. The entire wood schedule making reductions of about 25 per cent from the present rates and increasing the house rates on the pending bill to about the same extent, was then agreed to.

Sailing was not so smooth when it came to pineapples. The contention in this connection was for higher rates and came from Democratic sources. The objectors in this case were Taliaferro and Fletcher, of Florida. The house had fixed a duty of 8 cents per cubic foot on pineapples in barrels and \$8 a thousand, but the senate committee reduced this rate to seven cents and 75 respectively, thus restoring the provisions of the Dingley law.

Taliaferro presented an amendment restoring the house rate of eight dollars a thousand but changing other portions so as to require the payment of half a cent a pound for pineapples in bulk. The contention was for and against this increase, and the fight was mainly between the Florida senators, representing a pineapple producing state, and Smith and Rayner, of Maryland, in whose state there are large pineapple canning establishments.

Disavowing all championship of the canners the Maryland senators made a strenuous fight on general principles against the increase of duty. Rayner charged the Republican party with bad faith in promising to lower the tariff duties. Taliaferro's amendment was adopted 34 to 30.

Half of the members of the committee on finance voted for the Florida senator's amendment.

The close of the day as well as the beginning of it presented its surprise in the completion of the coal schedule.

It had been expected that this schedule would be debated at great length but it passed after little more than an hour's discussion. The new schedule was presented by Aldrich reducing the house rate on bituminous coal from 67 cents a ton to 60, and eliminating the house reciprocity clause.

Numerous attempts were made to reduce the rate and there was an effort to obtain free coal, but all were voted down and the committee's scale retained.

LETTER FROM HOME

Dear Sirs:—As you requested I should make you a statement, after taking your Hays' Specific, I write to say my wife and have taken two bottles for stomach trouble, and indigestion and we are well. It is not only a relief but a cure for this disease. No one need lose hope when your remedy can be had. With our pure water and Hays' Specific, Paducah ought to become a health-resort.

JAMES COLLINS,
June 16, 1909. Chief of Police

Walter (in expensive restaurant)—Will you have sugar in your coffee?

Mrs. Neulich—I don't see it on the bill.

Walter—There is no charge for sugar, madam.

Mrs. Neulich—No, thank you!—Puck.

—Try Pittsburgh Coal company for coke. Manufactured from our genuine Pittsburgh coal.

The wife of a dyspeptic man may not agree with him any more than her cooking does.

How Judges of Court of Appeals Will Spend Their Summer Vacations

During this year so far the judges of the court of appeals decided 639 cases, 326 during the January term and 313 during the April term. The appellate court has now adjourned until September 20. Three months will be spent in rest and recuperation. To be a judge of the court of appeals in Kentucky, and to become its chief justice, is the ambition of practically every lawyer in the state, and the job is the hardest, and at times the most strenuous of all elective positions in the gift of the people; so that when the hot summer days come, the judges are prepared to say, and truthfully so, "I love my work; but, oh, you vacation!" and no tears are shed when vacation time rolls around.

Chief Justice Settle will spend much of his vacation in his district, but his family will remain in this city during the summer. None of the terms of office of the judges expire this fall, so that there will be no election to the appellate bench this fall, but in the fall of 1910 successors to Chief Justice Settle, Judge Nunn, Hobson, Barker and Lassing will have to be elected. It is not expected that any of the judges will have determined opposition, although favorite sons are being mentioned nowadays with every publication of the rural press. Some of the judges, therefore, will spend some of their vacation this year fixing up their fences, while others will spend it otherwise.

On Fishing Trip.
Judge Lassing is one of the judges not likely to have opposition at any rate for he is going to spend much of his vacation in a camp on an island somewhere in the Ohio river twenty-five or thirty miles from Cincinnati. He spent much of his vacation on the island last year, and found fine fishing and a great place to rest.

Judge Barker is going to take a summer trip after resting up for a time in Louisville. When he returns to Kentucky he will go up into the mountains where he has large coal interests and spends a part of his vacation. The summer trip will be extended through the lake region, the Rocky mountains, and maybe the Pacific coast.

Judge Hobson will remain in Frankfort and his family will also remain here. He has a large and interesting family. His oldest daughter is just out of college, and his sons are about ready to enter college. They are highly esteemed by the Frankfort social set, and the younger members of the set are especially glad to know that the Hobson family will remain in the city this summer.

Judge Nunn will spend much of his

MEN ARE POWERLESS

To Fight Against Disease Unless They Strike at the Underlying Cause.

To treat Dandruff, and Falling Hair, with irritants or oils on which a parasite germ will prosper, is like scooping water from the ocean to prevent the tide from rising.

You cannot accomplish a satisfactory cure without having a right understanding of the fundamental causes of the trouble.

You must kill the Dandruff Germ. Newbro's Herpicide does this because it is specially made to do that very thing.

When the germ is removed, the hair has no choice but to resume healthy growth and beauty.

"Destroy the cause, you remove the effect."

Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

\$1.00 bottles guaranteed. R. W. Walker Co., special agents.

A Promise to Pay

Would you accept a stranger's note? No. Then why accept from a stranger any other promise to pay? A Fire Insurance policy is such a promise. Ought you to accept it without knowing all about the Company? Your usual business confidence is based on knowledge. Why make an exception in that part of your business which deals with insurance? A name is worth nothing on any kind of a promise to pay unless it is backed by character and resources.

We favor insurance knowledge, particularly about our companies. Their promises to pay have never gone to protest. Their obligations to its policy holders are backed with such a good reputation and such ample financial resources that the more you know about them the more you will want protection by their policies.

HUMORS IN THE BLOOD

When the blood is pure and healthy the skin will be soft, smooth and free from all eruptions or disease, but when the circulation becomes infected with any unhealthy humor the effect is shown by eruptions, pimples, boils, or some more definitely marked skin disorder, such as Eczema, Acne, Tetter, Psoriasis, Salt Rheum, etc.

Humors get into the blood, usually because of an inactive or sluggish condition of those members whose duty it is to collect and carry off the waste matter and refuse of the system. This unhealthy matter is left to sour and ferment and is absorbed into the blood, and soon the circulation becomes filled with an acid, irritating humor.

The blood then, instead of performing its natural duty of nourishing the skin, regulating its temperature and preserving its uniform softness, pliability and healthfulness, irritates and diseases the delicate tissues and fibers around the pores and glands and produces some of the various forms of skin eruption or disease.

The cause of all skin affections can be traced to some kind of humor in the blood. Healthy cuticles are only possible where the circulation is pure; and therefore the cure of any skin disease can only come from a thorough cleansing of this vital fluid. Salves, washes, lotions, etc., cannot cure. True such treatment relieves some of the itching and discomfort, helps to reduce inflammation, and aids in keeping the affected parts clean, but it does not reach the blood, where the real cause is located, and at best can be only palliative and soothing.

S. S. S. cures skin diseases of every character and kind because it purifies and cleanses the blood. It goes down into the circulation and removes the humors that are causing the trouble, builds up the weak, acid blood, and completely cures Eczema, Acne, Tetter, Salt Rheum, pimples, boils, and all other skin diseases and affections. S. S. S. is made entirely of roots and herbs, a safe vegetable remedy.

When S. S. S. has driven the humors from the blood, and cooled and purified the acid-heated circulation, every symptom passes away, the skin is again nourished with rich, healthful blood, and comfort is given to disease-tortured skins.

S. S. S. cures Poison Oak, Poison Ivy, Nettle Rash, and all other troubles due to a humor-laden blood. Book on Skin Diseases and any medical advice free to all who write. S. S. S. is for sale at all drug stores.
